Description:

Mohammad Ali Jinnah University is dedicated to fostering an inclusive and supportive environment for all members of its community, including those with disabilities, special needs, and staff/students requiring maternity care facilities. The campus infrastructure is continuously being upgraded to meet international accessibility standards, ensuring safe, dignity, and equitable access to all educational and administrative areas.

The following facilities have been established across the campus:

1. Facilities for Disabled and Special Needs

MAJU ensures that individuals with mobility challenges have easy access to necessary services and infrastructure:

- **Disabled Parking:** Designated parking spaces are clearly marked with the international symbol of accessibility and are strategically located at the nearest access point of the main administrative and academic buildings to minimize travel distance. These spots are extra-wide to allow for wheelchair maneuvering.
- **Accessible Toilets:** Dedicated accessible toilet facilities are available on every floor of all major academic and administrative blocks. These facilities are equipped with compliant features including grab bars, low-height fixtures, and sufficient turning radius for wheelchairs.
- **Ramps and Elevators:** All multi-story buildings are equipped with modern elevators and/or access ramps to ensure vertical mobility for individuals using wheelchairs or other assistive devices.
- **Wheelchair Access:** Main walkways and pathways across the campus are designed with smooth surfaces and appropriate widths to ensure unhindered wheelchair movement.

2. Maternity and Family Care Facilities

To support new and expectant parents within the student and staff population, MAJU provides private and hygienic spaces:

- **Lactation Room:** A private, secure, and hygienic room designated for staff and students who are breastfeeding. This room provides a calm environment for expressing or nursing, equipped with comfortable seating, a working surface, and a power outlet for breast pumps.

Location of Accessibility and Maternity Facilities

The following table lists the facilities available in the primary buildings on the MAJU campus.

Building Name	Facility Type Available
Main Administrative Block (Building A)	Accessible Parking, Accessible Toilets (all floors)
Library Block (Building B)	Accessible Parking, Accessible Toilets (all floors) Lactation Room (Ground Floor)
Faculty Block & Auditorium (Building C)	Accessible Toilets (Ground and 1st Floor), Ramps, Accessible Seating
Engineering & Labs Block (Building D)	Accessible Toilets (all floors)
